

INTRACEUTICALS

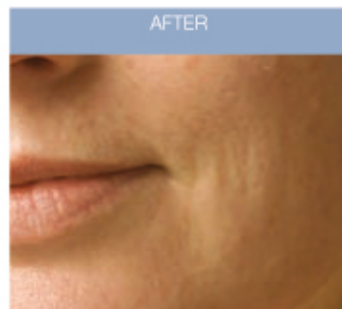

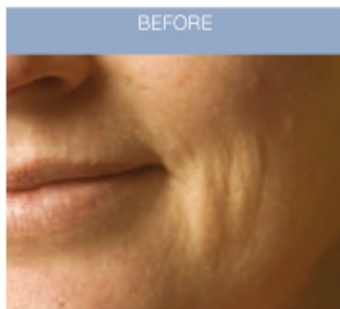

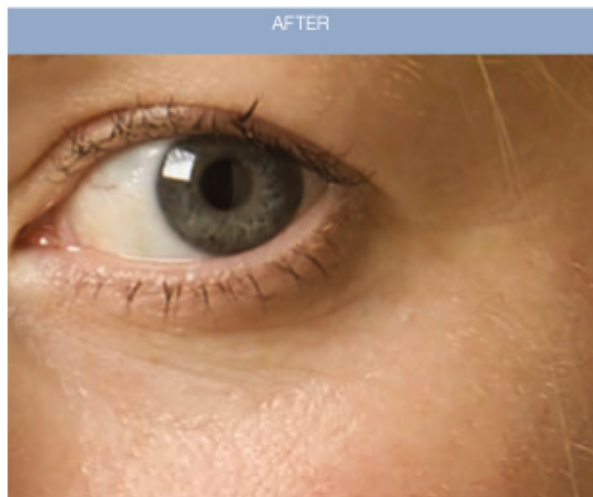

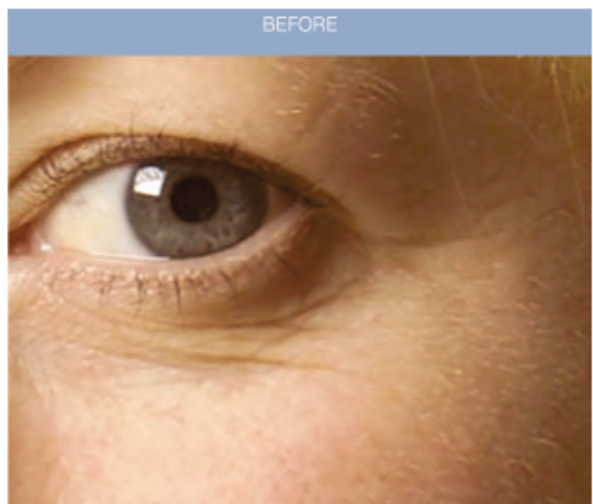

LOOK GOOD, FEEL GOOD, REAL FAST!

MADONNA USES INTRACEUTICALS INFUSIONS® AND EXCLAIMS, "I LOVE THE TREATMENTS AND SO DOES MY FACE"

Preparing for the red carpet? Need to look good right now? An Intraceuticals Infusion® is a non-invasive facial that calms, soothes, rejuvenates and improves the application of make-up for a glowing and flawless complexion. It offers a unique experience and instant results you can see and feel. Gentle, relaxing and soothing, an Intraceuticals Infusion® is suitable for all skin types. In just one 30-minute treatment your skin will look and feel years younger, smoother, clarified, nourished and hydrated. The appearance of fine lines and blemishes is visibly reduced for skin that looks and feels rejuvenated, radiant and fresh.

Intraceuticals is a global brand used by dermatologists, plastic surgeons, high-profile day spas, and celebrities, including the Hollywood elite. An Intraceuticals Infusion® uses therapeutic grade, pressurised hyperbaric-oxygen, together with state-of-the-art skincare serums, to suffuse the skin with anti-oxidants, amino peptides and intensive nourishers for instant hydration.

Intraceuticals' advanced product formulations are designed for total product synergy and a full range of take-home products completes the regime.

Before and after photos of patients who have had this treatment. Results may vary from person to person.
